

Searching Uncopywritten Images with Google

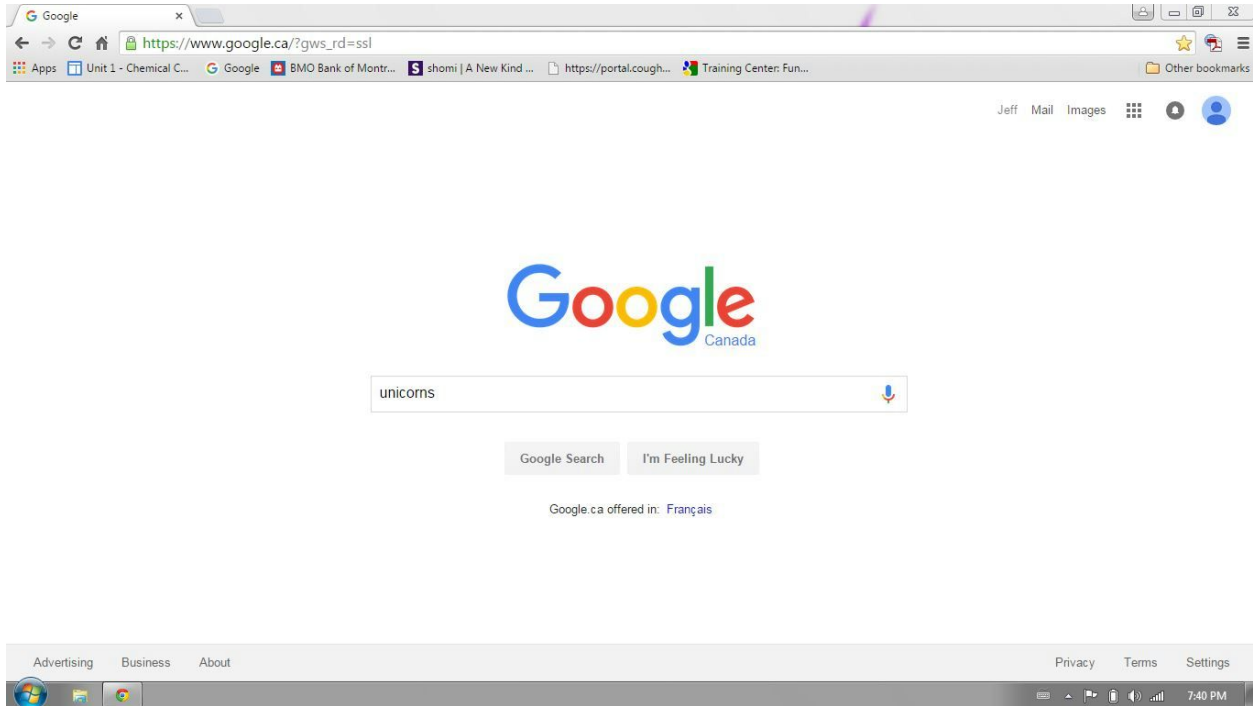

Google Image search provides all images that are found on the web and labelled under the topic you have chosen. The Communication Technologies class only allows some of these images to be used and others are not allowed.

Follow the steps below to see how images with copyright can be obtained on google images.

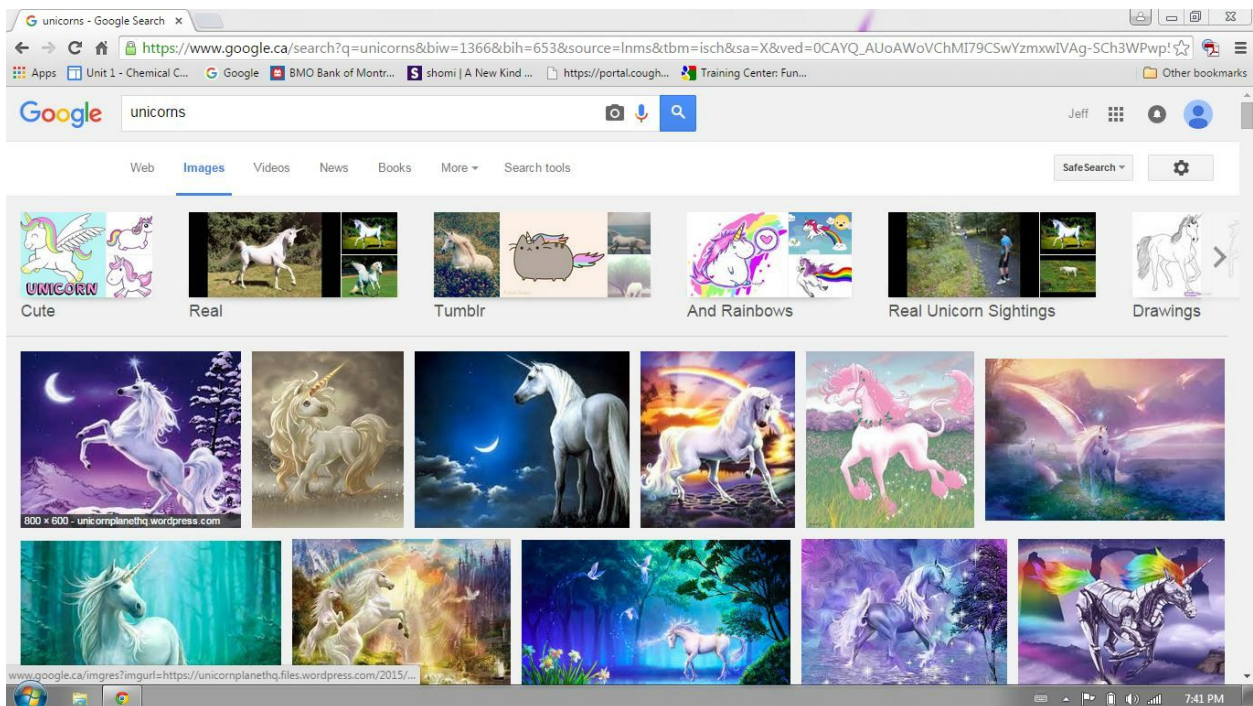

1. Go to www.google.ca

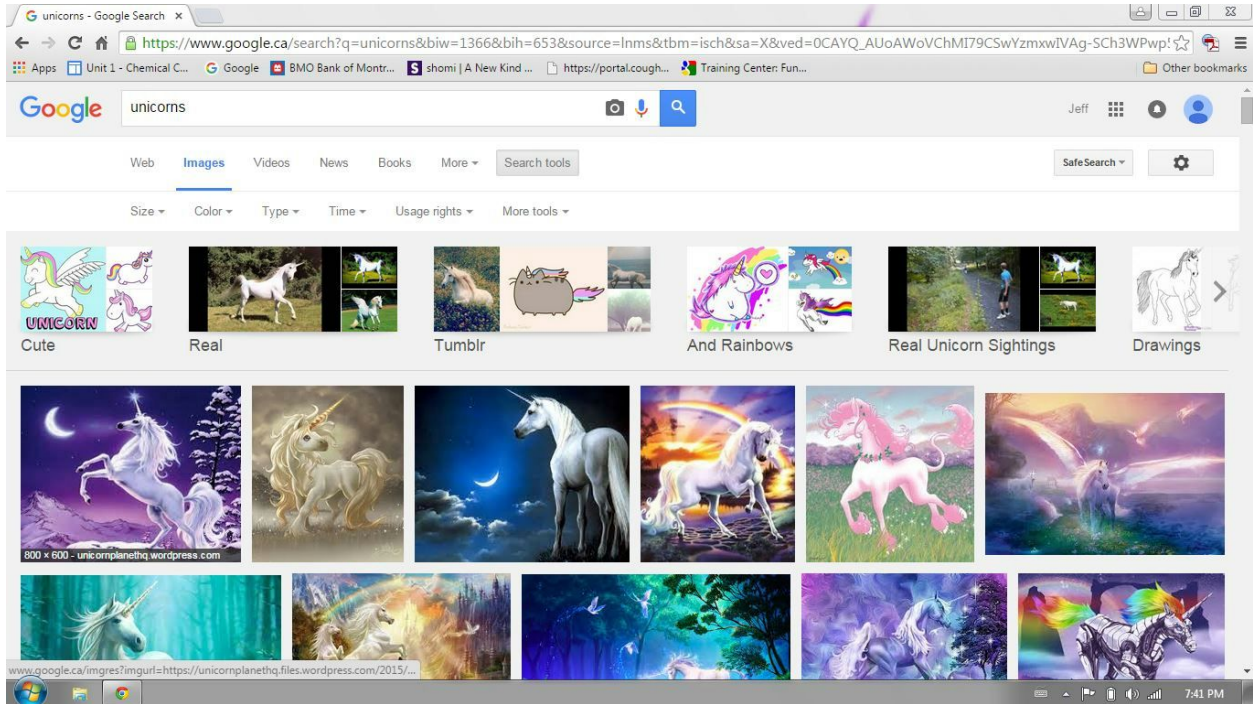

2. Type in the image you are trying to find in the space provided and hit enter.

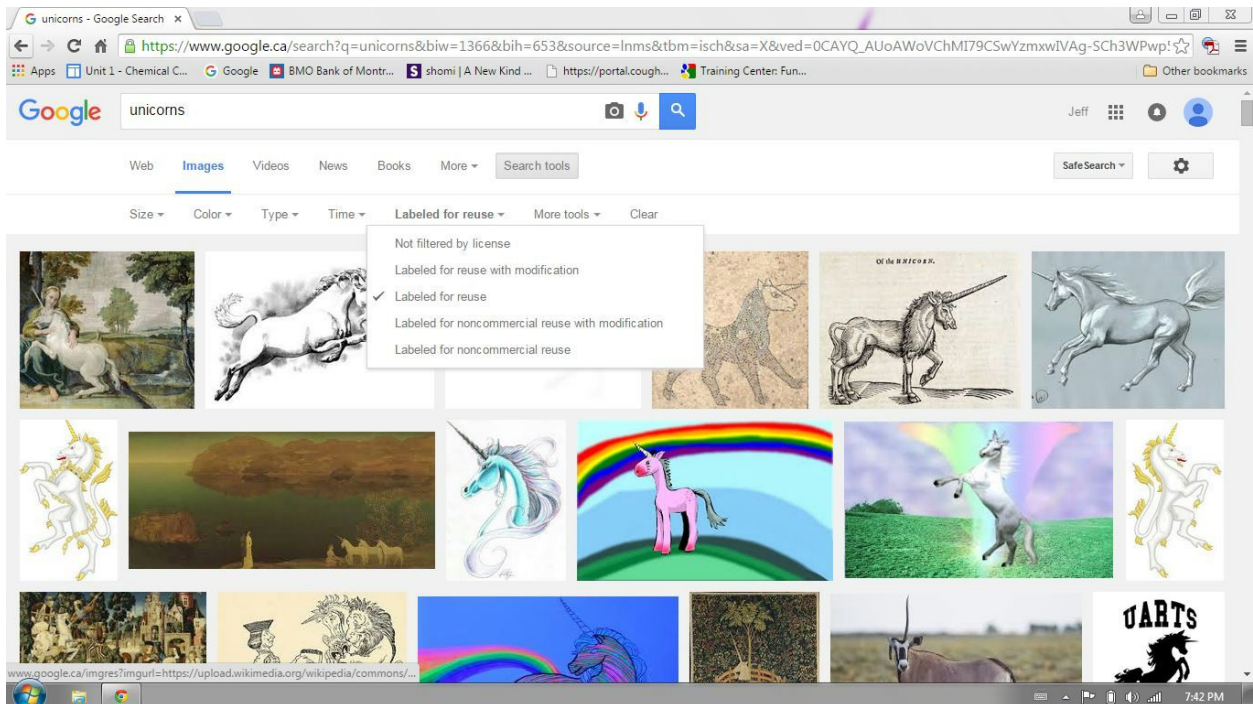

3. Choose “image” near the top of the page.

4. Click on “search tools” found below the google search topic.

5. Click on “Labelled for reuse”

6. Choose your image.
